PROJECT "ODYSSEUS NEEDS YOU!"

Come and help us put Cyclops on a sleep and escape from Scylla and Charybdis. Be aware and close your ears because Aeolus' bag may lead us to the Sirens! Throughout this adventure we will build our own raft to escape from Circes' island! At the end, be sure not to eat lotus because this spectacular journey will be forgotten...!!!

ABOUT US

The purpose of the cooperative is collective and social benefit. In particular, the purpose of the cooperative is sustainable development and the provision of social services of general interest.

VISION & MISSION

The acronym EPTTA is an anagram of the number seven (7). Culture, art and tourism are the three core elements that can support the quality of life of people with and without disabilities. The theoretical basis is "the Panaesthesia" because it is an experience-oriented approach that affects all senses of enjoyment and the perception of all actions, be it culture, art or tourism.
